

# Group Project Individual Survey

Matt Warner

---

## 1 Contributions to the project

- CSS
- Contributed to many of the user interface features.
- Added the queue sort + user interface table sort functionality.
- Helped with the ERD and relational schema design.

## 2 Things I learned from the project

- how to create and structure dynamic web pages.
- Learned about php syntax and some php built in functions.
- Learned how to use php sessions to save user input across multiple refreshes.
- Also learned a lot of CSS.

## 3 Tools used for collaboration

- Discord
- Google drive

## 4 Team rating

1. Sang Pham - 10/10
  - Main contributor of the DJ interface, also put a lot of work into the user interface and er diagram.
2. James Bolla - 10/10
  - Contributed to the conceptual modeling along with functionality for the user interface. Also contributed to the DDL and DML scripts.
3. Emanuel Slaughter - 10/10
  - Contributed to the php code for the user interface and helped design the ER diagram and relational schema.
4. Ty Danan - 10/10
  - Contributed to the ER diagram and helped write the DDL and DML scripts, also helped with the user interface.
